## INDIA IS EMERGING AS A MAJOR MANUFACTURING & EXPORT HUB WITH LAUNCHING OF NEW SCHEMES : ASHWINI VAISHNAV

Union Minister Shri Ashwini Vaishnaw aims to increase exports to \$1 trillion by 2030 through new schemes in various industrial sectors like transport, power supply, logistics, and digital connectivity. The plan includes providing incentives to entrepreneurs in manufacturing sectors like auto components, automobiles, capital goods, chemicals, and electronics.

India aims to reduce dependency on imports by enhancing domestic manufacturing,

particularly in medical devices and electronics. The country is now a significant exporter in mobile phone production and electronics, creating millions of new jobs. India is transitioning from assembling to precision manufacturing,

with a focus on various sectors like pharmaceuticals, mobile phones, electrical machinery, and toys.

# INDIAN GOVT TO EXPAND SCOPE OF DPI AND DPG FOR EXPORTING TO GLOBAL SOUTH NATIONS

The Indian government plans to expand Digital Public Infrastructure (DPI) exports to aid emerging market economies with financial inclusion, innovation, and economic growth.

This includes popular platforms like Aadhaar and UPI, with a focus on developing partnerships with the global south for mutual benefit.

“There is interest in newer DPI as well, as the India stack is increasingly finding popularity among emerging economies,” added the person, who didn’t want to be named.

India’s popular DPI and DPG programmes, especially in developing countries, include CoWin, UPI and Aadhaar.

Some of the relatively new DPI and DPG that have found traction include Samarth, an initiative by the ministry of education started in 2019, a digital cross-sectoral knowledge platform called Niti for States, launched by Niti Ayog, and Agami, a platform to improve the law and justice system.

In a brief last month, the independent global think-tank Observer Research Foundation said that as the landscape of global finance is undergoing a paradigm shift, with technological innovations reshaping traditional systems, the India Stack has enabled the country to leapfrog legacy financial and payments systems of developed countries.
