NO CURBS ON EV IMPORTS FROM ANY NATION, EVEN CHINA: DPIIT SECRETARY

India's new electric vehicle (EV) policy does not impose any restrictions on importing electric vehicles from any country, including China, according to a senior government official.

Rajesh K Singh, the Secretary of the Department for Promotion of Industry and Internal Trade (DPIIT), revealed in an interview with CNBC-TV18 that the global EV manufacturers have shown significant interest in the new policy.

The government emphasizes disbursing production-linked incentives (PLI) quarterly. Importing EVs from China is allowed, but restrictions exist on investments, especially from countries sharing land borders.

A new policy encourages domestic EV manufacturing with reduced import taxes for manufacturers investing at least Rs 4,150 crore, starting production within three years, and using 25% locally sourced components. They can import up to 8,000 EVs annually with reduced duties for those priced above USD 35,000.

INDIA INITIATES ANTI-DUMPING PROBE ON PVC RESIN IMPORTS FROM 7 COUNTRIES

India has initiated an anti-dumping investigation on imports of Poly Vinyl Chloride (PVC) Resin (suspension grade) from seven countries - China, Indonesia, Japan, South Korea, Taiwan, Thailand, and the United States.

The Directorate General of Trade Remedies (DGTR), under the Commerce and Industry Ministry, has launched this probe in response to a petition filed by three of the five domestic producers of 'PVC Suspension Resins' in India.

Chemplast Cuddalore Vinyl Ltd, DCM Shriram Ltd, and DCW Ltd have requested the retrospective imposition of anti-dumping duties on PVC Resin imports from seven countries. They argue that these countries have historically dumped PVC Resin into the Indian market, a practice that was previously addressed with anti-dumping duties from January 23, 2008, to February 9, 2022. The petitioners point out a significant 65% increase in imports in the 2022-23 fiscal year following the expiration of the previous anti-dumping duty, which they claim is a direct result of dumping. This surge in imports has led domestic producers to demand immediate action from the authorities.
